

Smiths Gauges

For generations, Smiths gauges have set the standard in quality instruments and gauges for classic cars.

Starting with the original Smiths tooling, we employ only the finest materials and craftsmanship for each and everyone of our instruments, which means, not only are you assured of owning the original but undoubtedly the best, so why settle for anything less.

Smiths instruments are manufactured in the UK by Caerbond Automotive Instruments.

AC Cobra Gauges

Smiths gauges were originally chosen by AC and Carol Shelby for the iconic Cobra sports car. Now you can equip your own Cobra with the same instruments as used in the original.

For people seeking the ultimate in authenticity the speedo is also available in reverse wind (counter clockwise) operation as fitted to the original Cobra. Electric gauges are also available as an alternative to the original mechanical gauges.

Smiths Cobra range, the only choice for Cobra builders!
